

Corporate Wallet Digital Twin

Turn partial evidence into the right client conversation.

TEAM: Corporate Wallet Digital Twin

MEMBER: Christopher Koen

AS OF 30 JUNE 2026 | BUILD 12 AUGUST 2026 | CLIENT DEMONSTRATION

20	320	224	8
BUSINESS TWINS	SOLUTION ESTIMATES	CONVERSATIONS	WEEKLY CAPACITY
12 components each	16 solutions x 20 clients	all discovery-only	MILP status OPTIMAL

The decision: spend eight conversations where downside-aware value is strongest

Pareto-filtered client problems and solution bundles; client and bank value remain separate; unknown feasibility means discovery.

#	CLIENT / ROLE	ISSUE / SOLUTION	CLIENT	BANK	STABILITY
1	Bid Corporation / Treasurer	Liquidity fragmentation Liquidity and cash management	R13.7m	R4.0m	79%
2	Sanlam / Finance Operations	Payments inefficiency Payments	R17.0m	R3.8m	62%
3	Sanlam / Treasurer	Liquidity fragmentation Liquidity and cash management	R17.0m	R3.8m	29%
4	BHP Group / Treasurer	FX exposure Cross-border FX	R14.6m	R8.1m	33%
5	Shoprite Holdings / Treasurer	FX exposure Cross-border FX	R5.9m	R416.2k	100%

CANONICAL DECISION OBJECT Client + stakeholder + problem + solution bundle + window Product opportunity remains an analytical input, not the final banker action.	BHP EXPLANATION PATH FX exposure -> Treasurer -> Cross-border FX Client R14.6m Bank R8.1m Stability 33% No dated, supported trigger event is established for this client and problem. There is no time-critical reason to act this week; the window below reflects background likelihood only.
