

Corporate Wallet Digital Twin

See the wallet. Size the gap. Choose the moment.

TEAM: Corporate Wallet Digital Twin

MEMBER: Christopher Koen

AS OF 9 AUGUST 2026 | V2.1 | SYN BANK SIMULATION + PUBLIC E1

The first conversation: Glencore Trade Finance

Ranked by uncertainty-adjusted scenario contribution, evidence quality, fit and timing - not by raw volume alone.

CLIENT / PRODUCT	SCENARIO GAP	P(TOP 10)	EVIDENCE
1. Glencore - Trade finance	R146.6m	100%	E1 anchor
2. Glencore - Collections	R82.3m	100%	E1 anchor
3. Glencore - Cross-border FX	R62.8m	100%	E1 anchor

A = q x T

Observed = bank share x total wallet

BHP WORKED TWIN

Validate cross-border FX share

Wallet R119.5bnGap R45.4mWidth -41%

BHP Annual Report 2025 p.160 | period 30 Jun 2025 | available 19 Aug 2025

Evidence narrows intervals; validation checks whether coverage survives

Known-truth multibank analog validates mechanics only; it is not real E3 competitor observation. 51 expanded E1 facts await finance-SME approval.

RATE / PRIOR SENSITIVITY

Trade Finance remains first-ranked

9/9 benchmark cases | 100% of 10,000 draws

But it is never a majority of the top 10. Cross-border FX is majority-dominant in 79.7% of draws.

GOVERNED GENAI

Extract -> validate -> cite -> brief

640 stress cases | 0 validator failures

Three provider adapters; structured candidates; deterministic currency, period, arithmetic, citation and injection checks; deterministic fallback.

DELIVERED: executed V2 notebook | entitled workbench | 20 client twins | evidence packs | source-grounded briefs | judging deck

Limits: no actual competitor flows, E3 multibank panel, bank-approved rates, qualified RM outcomes or causal uplift claim.

Data label: SYN BANK SIMULATION + PUBLIC E1 + REPRESENTATIVE BENCHMARKS - NOT FOR FINANCIAL DECISIONS
